

**Professional
Football
Services**

FK SPORTS

Your Sports Family

Contract Negotiation

This is the core of our business. We are intimately familiar with the NFL's Collective Bargaining Agreement and the intricacies of writing contracts under this Agreement.

Endorsements, Personal Marketing & Public Relations

We have relationships with many of the companies looking to hire NFL Players to endorse their products, and we actively seek endorsement deals for our clients.

Combine Preparation

We have existing relationships with multiple facilities that provide professional training for athletes preparing for the NFL Combine. We will arrange for the logistics of this training and for the combine itself.

Financial Services

FKSM does not offer these services directly, but we feel that it is vitally important to take care of these concerns for our clients, and we have partnered with several NFLPA certified financial advisors to make sure that our clients receive the best advice, obtain proper tax counsel and are planning for their financial futures.

Your Sports Family

FK Sports is a family business. FK Sports' principal partners, Michael C. Frilling, Esq. and Thomas Kresky are brothers-in-law and have been working and playing together for over a decade.

Our guarantee is that you will be looked after in every aspect of your professional career and that we will always be here when you need us.

**Every FK Sports client is a member of our family
You can expect to be treated like one**
